10. System performance and STCs

Site-Specific Performance Estimate

STC Incentive

10.2 We have calculated the STC Incentive based on:

- (a) the maximum quantity of STCs that can be created in respect of the System under law, taking into account the Site-Specific Performance Estimate; and
- (b) the monetary value of that quantity of STCs, and deducted the STC Incentive from the System Price.

Assignment of STCs to us

- 10.3 You hereby assign to us all of your existing and future rights, title and interest in and to all STCs created or able to be created in respect of the System.
- 10.4 You must do anything we reasonably request of you for the purpose of perfecting, confirming or evidencing this assignment, including providing information and executing documents.
- 10.5 You warrant to us, when you accept the offer set out in the Quote and again on installation of the System, that you have not previously created, or assigned the right to create, any STCs in respect of the System or any other solar photovoltaic generating unit at the Premises.

Charging you the STC Incentive

- 10.6 If you do anything that:
- (a) obstructs or avoids the assignment under clause 10.3;
 - (b) reduces the maximum quantity of STCs that can be created in respect of the System; or
 - (c) renders the System ineligible for the creation of STCs,
- then we can increase the Total Price by the amount of the STC Incentive, and you must pay us the STC Incentive within 3 (Three) Business Days of us invoicing you for it.
- 10.7 Clause 5 does not apply to any increase of the Total Price increases under clause 10.6, and you cannot end the agreement as a result of a price increase, or refuse to accept it.

The STC's (Small Technology Certificates) incentives are part of the Australia's Renewable Energy Target scheme. These incentives can significantly reduce the cost of solar systems. The value of these Certificates is deducted from the price of the solar system when customer accepts to assign them to SolarBright as a point of sales discount.
